## It's About the People

**A**T THE CORE OF EVERY SUCCESSFUL company are committed owners and employees. All five of the principals of BCB Homes are heavily involved in the business, from sales and project management to field operations. The BCB Homes management team draws on their vast construction experience in everything from high-rise condominiums and commercial buildings to custom estate homes and remodeling. In addition to these strong backgrounds, we keep our eyes on the future of construction and technology by continuing to educate ourselves on the newest techniques and building sciences. Our talented staff of professionals who perform the work have benefited from our principals' vision and dedication to teamwork. The result is an experience that has our clients inviting us into their homes again and again!
