

Boran Craig Barber Homes Defines Excellence

WHAT DEFINES A GREAT BUILDER? Experience, expertise and excellence—all hallmarks of Boran Craig Barber Homes. Undeniably, a company whose reputation as a premier luxury home builder has raised the bar for construction standards over the past 22 years.

Today, the ideals drawn from experience and expertise are implemented by President Joe Smallwood and a group of professionals with diverse backgrounds ranging from engineering to architecture to carpentry and masonry.

"Our goal is to make the construction process as enjoyable for our clients as possible while guiding them through each phase of design and building," Smallwood said. "The result is a home that the client will enjoy for many years."

PATTERN OF PROFESSIONALISM

BCB Homes' experienced staff of professionals oversees the flow of information from the client to the architect, interior designer and landscape architect to ensure that the client's wishes are accurately transmitted to the artisans who perform the work. One superintendent is assigned to each project to ensure that the team in the field applies their high standards to every aspect of a project. Under the superintendent's direction the original design decisions are carried out to exacting specifications by their team of craftsmen.

Attention to detail extends beyond communication and quality control. BCB Homes conducts extensive research to provide clients with state-of-the-art materials and systems which are incorporated into their standards of construction. Such quality standard systems incorporate the subtle yet important details of construction that not only increase the value of the homeowners' investment but also prevent future problems.

Standing proudly behind their work, BCB Homes' relationships with their clients extends long past the completion of their homes. The company's service department is available 24 hours a day after move-in to handle concerns the new homeowner might have.

"I am proud of the creative, service-oriented and personal way that we conduct our business," said Smallwood.

LUXURY-PLUS

Tangible evidence of BCB Homes' expertise can be found—and enjoyed—across Southwest Florida. Some of the most magnificent and luxurious multi-million dollar custom estate homes are built by BCB Homes. They are located beachfront and throughout exclusive Bay Colony, Port Royal, Mediterra, Grey Oaks, The Strand and many other exquisite communities. These ideally situated dramatic residences provide interiors that seamlessly blend with exterior views and landscaping. Captivating combinations of naturally lustrous woods, marble and stone abound in architectural detail and custom cabinetry. Stone columns, hand-carved medallion accents and pillared archways embrace these beautifully rich, infinitely livable estate homes. BCB Homes' commitment to satisfying their clients' needs have rewarded them with a portfolio of Naples' most prestigious homes and satisfied homeowners.

A NEW DIVISION (See pps. 30-31)

A new division of BCB Homes focuses on smaller, custom or pre-conceived home plans bringing luxury to a more intimate scale.

This division is known for its ability to provide a wide range of luxurious residences to satisfy those clients who desire a luxury home but prefer the convenience of pre-existing designs and selections. BCB Homes offers clients a wide range of architectural styles from which to choose and plans can be customized to fit each clients' needs. These homes are constructed with the same standards of excellence and expertise as all BCB Homes. Systems, components, and materials are selected based on their years of experience for function and durability in the Florida environment. Models and homes are available to visit in Mediterra, Shadow Wood at the Brooks, Grey Oaks, Aqualane Shores, and Coquina Sands.

BCB Homes' formula for success has provided them with an unparalleled reputation in the custom luxury residential business. Every BCB Homes home remains steeped in traditional dedication to fine craftsmanship, exceptional quality, enduring service and customer satisfaction.
