Since 1993, Naples-based BCB Homes has been building and remodeling custom homes and condominium residences throughout Southwest Florida.

BCB Homes was founded by a group of second-generation builders who continue to set high standards in luxury residential construction by combining the latest technologies with proven Old-World traditions.

A leader in Building Science, BCB Homes has researched, identified, diagnosed and resolved a variety of building issues to eliminate construction problems before they happen. Homeowners contemplating a remodeling project appreciate our Testing & Diagnostic Team who utilize a forensic approach to identify issues in existing residences.

With over 300 clients from Marco Island to Sarasota, BCB Homes is committed to making your building experience enjoyable and stress free. So if you're looking to build a new home or considering remodeling your current home, be sure to contact BCB Homes.

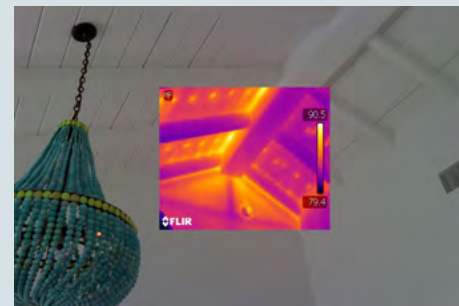

Silver King Model Breaks Ground @ Hill Tide Estates!

BCB Homes has begun construction of the first model for Hill Tide Estates on the southern most point of Boca Grande. The home has been designed by John Cooney of Stofft Cooney Architects to capture the breathtaking views of the Gulf of Mexico and Boca Grande Pass. The Great Room design consists of 4 Bedrooms, 4 En-Suite Bathrooms and 2 half Bathrooms. Because of the Boca Grande lifestyle, the home is designed with the Master Bedroom on either the main living floor, or on the top floor which takes full advantage of the gorgeous views of the Gulf.

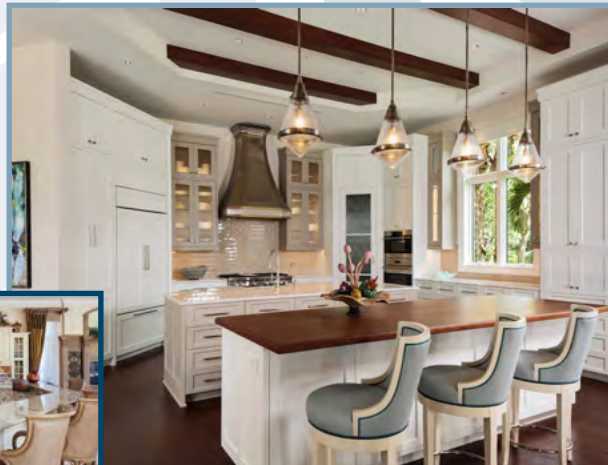

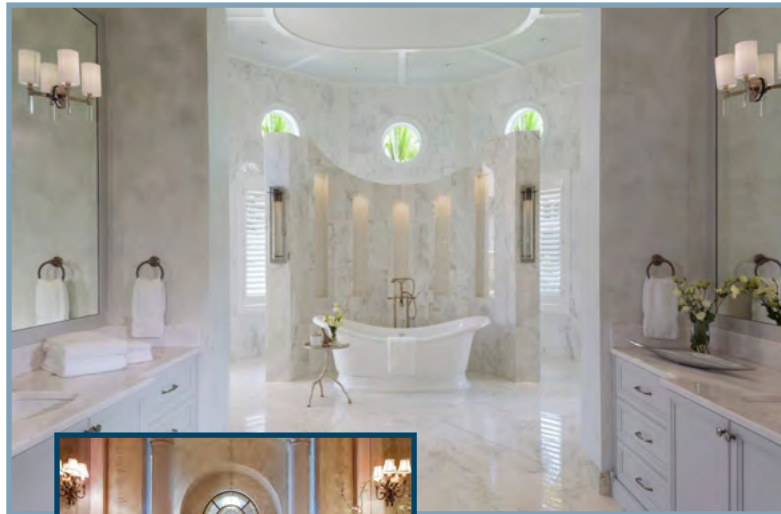

The interior design elements have been created by Lisa Ficarra and her team at Ficarra Design Associates to give a casual yet authentic Boca Grande feel. The home will feature a unique balance of traditional beach house elements such as white washed floors, painted white planking on the walls and ceilings with a transitional spin on the plumbing fixtures and architectural elements throughout. Various types of natural textures have been applied to various elements as well. For more information on this home, visit our website (www.bcbhomes.com) or contact Heath Seckel with Gulf Coast International Properties, Boca Grande @ 863.207.2586.

Innovative Construction Solutions: Providing Construction Services & Remediation Services

Southwest Florida is one of the most challenging environments to build in, and there are quite a few "sick" buildings in the area. Because BCB Homes' DNA is engineering, we love the challenge presented by the complexities of fixing a home that is failing. Therefore, we have created a separate company to help with just these issues we see in many homes. Innovative Construction Solutions has been created to help determine the cause and effect of failures with the building envelope (roof leaks, window leaks, stucco failures and air duct leaks) and repair them. Innovative has an extremely qualified and professional team who is able to collect the data necessary to assess the health and well-being of the building envelope and take the next steps to make the necessary repairs. If you would like more information about the services this new company offers, please feel free to call Innovative Construction Solutions @ 239.384.5890.

PHOTOS: Before & After of Remodel in Bay Colony

We recently remodeled this home in Bay Colony Golf Estates. The home owners selected the team to help them bring this award-winning design to life!

Interior Designer:
Lana Knapp, Collins & Dupont

Remodeler:
Greg Brisson, BCB Homes

PHOTOS: Annual Company Party

A beautiful afternoon in Southwest Florida to bring our employees together for our annual get-together at Hamilton Harbor Yacht Club. With over 90 guests enjoying the food and beautiful ambiance of Naples Bay, it was a fantastic afternoon for everyone. There were also seven employees celebrating 10 year anniversaries with the company.

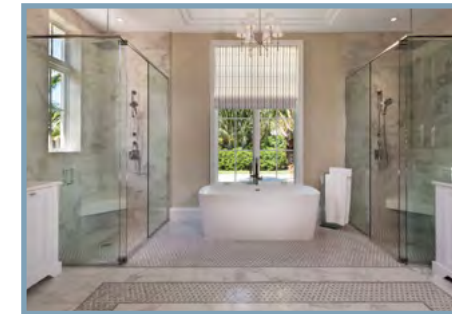

Congratulations to Mike Hayden, Dana Jewett, Roy Jeffrey, Jeff Lenner, Grant Requa, Isaac Aikey and Edgar Garcia!

Home For Sale: 190 16th Avenue South

BCB Homes has recently completed this beautiful, two-story, contemporary coastal-style home that is set on a beautiful corner lakefront lot. Located in the heart of Olde Naples on the corner of Gordon Drive and 16th Avenue South, this home features a tranquil backyard lake which provides a serene backdrop. Surrounded by mature trees and lush tropical plants, the home is only a few steps from the white sand beaches of the Gulf of Mexico. The 5 bedrooms plus study, 5 ½ bath home has 4,867 square feet under air, and includes a three-car garage.

The home was designed by award-winning architect John Cooney of Stofft-Cooney Architects and the luxury finishes and European furnishings were designed by AR Arquitetura & Design, an international award-winning interior design firm. The expansive outdoor living area overlooks the tranquil lake and features a heated, infinity-edge pool, spa, custom designed lakeside dock and covered entertainment area complete with fire pit and kitchen. For more information about this home or to schedule a private showing, please call Marita Gastaldello with William Raveis-Florida @ 239.253.4122.

BCB Homes In The News

Eric Morris was elected to the Collier Building Industry Association's 2018 Foundation Board of Directors last month! CBIF was structured in 2005 for educational and charitable purposes by the CBIA and the focus for 2018 will be supporting workforce training. The Board hopes to develop programs for local high schools to produce workers whose skills match economic demands. Workforce training seeks to enhance a region's economic stability and prosperity by focusing on people rather than businesses. Eric Morris has been utilizing this approach for hiring for over the past 10 years. One of his first hires from Immokalee High School just celebrated their 10-year anniversary with BCB Homes and has worked hard to become one of the leading waterproofers we have!

One of our projects was recently featured on Houzz.com. If you haven't visited our Houzz page recently, visit it today to enjoy an online community about architecture, interior design and home improvement!
